The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Re: Comments to Further Notice of Proposed Rulemaking
Amendment of Parts 15, 14 and 90 of the Commission's Rules Regarding Low Power
Auxiliary Stations, Including Wireless Microphones
WT Docket Nos. 08-166, 08-167; ET Docket No. 10-24

Dear Chairman Genachowski:

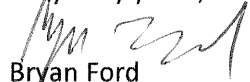

We are a growing church in Northwest Indiana with almost 4000 members. We currently operate 3 campuses. We are asking the FCC to protect wireless microphones from interference and ensure that wireless microphones users will be eligible for licenses.

We use several wireless systems at our facilities for live music for Pastors and musicians. We also record our services at our main campus to be played back at our other locations. Our church hosts seminars and conferences to thousands of people. This year we are hosting the Leadership Summit and a Marriage conference.

It is important for us to continue interference-free operation of our wireless systems to allow critical clear communications with live audiences. These systems allow freedom of movement on our stages and auditoriums. To assure that we will be able to continue wireless systems we are asking the FCC to ensure that we should be able to obtain an FCC wireless microphone license, regardless of any rule changes that the FCC adopts.

If you have any questions regarding these comments, please do not hesitate to contact the undersigned.

Very truly yours,

Bryan Ford
Technical Arts Operations Manager
Faith Church
